

Spinworx® New Imperial Lineup

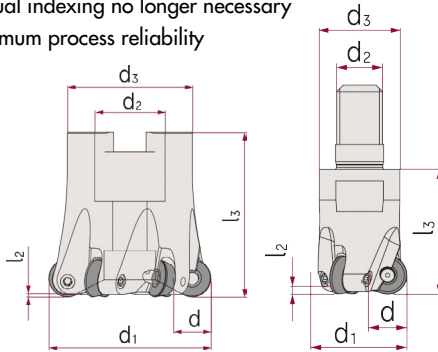

Boost Productivity

Reduce Costs

- Self-rotating round inserts
- No interruption in the production process
- Manual indexing no longer necessary
- Maximum process reliability

ABOUT pokolm

As an owner-run SME, Pokolm has been manufacturing and selling high-performance milling tools since 1994. The Pokolm product range offers optimum tool systems for many industries, from tool holders to indexable milling cutters as well as the highest quality inserts in various designs, material grades and coatings. The products are used for roughing and finishing in the aerospace, power generation, food and medical technology sectors as well as in the areas of tool and mold making and machine building.
